Administrative history / Biographical sketch

Note

David Ewen (1907-1985), was a prolific writer, editor and Associate Professor at the University of Miami's School of Music. Ewen conducted research in all areas of music, both serious and popular. He was particularly noted for his works on American musical theatre and the history of American popular music.

Scope and content

The David Ewen Collection consists of materials which pertain to several aspects of music, ranging from composers to opera houses and festivals, as well as his personal life and work. The papers follow the original order established by David Ewen.

The bulk of the collection contains information and some correspondence pertaining to American and foreign composers and serious and popular performers such as George Gershwin, Charles Ives, Igor Stravinsky, Gustav Mahler, Maria Callas, Bing Crosby, and other notable 20th century composers and performers.

Notes

Title notes

Arrangement

The collection is made up of 13 different series. The first eight series are composed of magazines and newspaper clippings, correspondence, playbills, programs, pamphlets, pictures, and rough drafts of musicians with comments and corrections.

The next three series are found in boxes 134-142. These boxes contain correspondence, newspaper and magazine clippings, photographs, postcards, brochures, bulletins, playbills, and typescripts. The correspondence, much of it related to Ewen's books, is arranged chronologically. Some of these letters are from noted composers such as George Gershwin, Leonard Bernstein, and P.S. Wodehouse. The boxes contain information on many topics, such as Ewen's books, the Salzburger Festival, and universities as well as others.

The last two series contain an alphabetical index on different musicians and other music related themes and most of Ewen's books.

Restrictions on access

This collection is open for research, but is kept in an off campus storage facility. Please allow up to 72 hours for delivery of requested materials.

Conditions governing use
