Title: Zine Collection

ID: ASM0333

Physical description: 87 boxes

**Dates of creation,
revision and deletion:**

Scope and content

An ongoing collection of zines added to the holdings of the University of Miami Libraries Special Collections. Zines are typically independent and self-published booklets popular in underground subcultures. The first zines were fanzines, started in the early 20th century by science fiction fans documenting the genre. The format truly took off with the punk rock movement of the 1970s, as a do-it-yourself spirit inspired legions of underground punk fans to start raw but vibrant journals documenting the nascent music scenes in their communities. Zine topics would broaden throughout the 1980s and 1990s to cover a variety of subject areas, from comics to anarchist politics to women's rights, to more mundane subjects like dumpster diving, alternative fashions, tattoo art, and much more. Despite the expansion of topics, the format usually remained the same—self-published booklets printed in limited editions and typically produced with a photocopy machine.

Notes

Title notes

Restrictions on access

This collection is open for research.

Conditions governing use

University of Miami does not own copyright. It is incumbent on the user to obtain copyright from the original author.

Other notes

- **Publication status:** Published
