JOHN DOS PASSOS COLLECTION

CONTAINER LIST

INSTRUCTIONS

What follows are *two* distinct container lists. The first was prepared by Virginia Spencer Carr, and contains detailed notes on the materials. Much of the description for this container list is item-level, but the folder numbers in which items are contained are lacking. Therefore, a second container list that contains folder numbers is given after the Spencer Carr container list.

TABLE OF CONTENTS

Virginia Spencer Carr container list.....	2-22
Folder-level container list.....	23-35

SERIES I: SOURCES/CORRESPONDENCE, includes letters and documents solicited and compiled by Virginia Spencer Carr. The individual files are maintained as received from the compiler. The following notes provide information on the types of materials present for each correspondent.

Letters

- * The number before the slash mark indicates the number of letters from Virginia Spencer Carr (or her research assistant Maxine Brown) to the subject, and the number after the slash indicates the number of letters from the subject to Carr.
- * Following these designations, the dates of Carr letters are listed on the left, and dates and descriptions of subjects' letters to Carr are listed on the right.
- * All Carr letters are carbon copies of typescript correspondence.
- * Unless otherwise noted, all letters from subjects are 1 p. long.
- * The following legend applies for subjects' letters:

h=holograph letter
pc=postcard
pm=postmarked (if the author of the letter did not put a
date on the letter itself)
t=typescript letter
thc=typescript letter with holograph corrections

Other

- * "Notes" are by Carr/Brown on the subject under which they are listed, and are handwritten unless otherwise indicated
- * Clippings are largely from contemporary (1970s) newspapers or magazines and are concerned with the subject under which they are listed
- * Items of particular interest are listed in **bold**.
